Summary

As a chef with 10 years of experience, I have developed strong skills in problem-solving, organization, and teamwork. These skills have allowed me to thrive in a fast-paced and high-stress environment, where I have consistently delivered high-quality products to meet customer expectations. I have also honed my attention to detail and ability to multitask, which are critical skills in the tech industry. My passion for learning, combined with my dedication to meet or exceed customer expectations make me an asset to any team.

SKILLS

Languages: HTML, CSS, Javascript, SQL, NoSQL

Libraries/Frameworks: React, Node, Express, MongoDB, Jest, Bootstrap, JQuery, Bulma, Tailwind.

Version Control/APIs: Git, Github, Terminal, Heroku, Document Object Model (DOM), AJAX(Fetch)

Software Skills: Debugging, TDD, Responsive Design, Object-Oriented Programming (OOP), Object-Oriented Design, Asynchronous JS, UX Design, UI Design.

Projects

The Sun Hotel | [Repo](#) | [Deployed](#)

Project conception/design, schema/model updates, Landing/Booking page design/functionality

- Worked with a team to deliver a MVP for a Hotel, with Login/User auth, Reservation System, Review function and CRUD operations. Timeframe: 9-10 days.
- Booking system uses React-calendar/date-fns/moment. Works like a full reservation system. Reservations cannot be made on the date that has 5 or more reservations for specified room type. Will return unavailable dates. Solely responsible for this feature.
- Tools/Languages: MongoDB/ Mongoose/Apollo/GraphQL/ Node/ Express/ JS/ React/ Heroku/

Step 2 Rhythm | [Repo](#) | [Deployed](#)

API research, handling, and rendering, Front-end Functionality

- An app to search for lyrics, related songs, and news to your favorite songs and artists.
- Front-End app that displays API data. AGILE methodology to develop MVP in a short time.
- Tools/Languages: HTML/ CSS/ JavaScript/ Genius API/ Bulma

Portfolio | [Repo](#) | [Deployed](#)

React SPA

- First experience using React framework with the goal of having a SPA to display projects and download my resume
- Projects rendered dynamically. Data is set in an array to allow for easy updates
- Built and Deployed using gh-pages.
